

How to Operate Your Automation Marketplace (User Manual)

Daily workflows: Login, Lead CRM management, Adding workflows & 1-click n8n import

1. What This Platform Does for Your Business

Core Purpose:

AutoFlows Hub is your 24/7 digital agency storefront. Visitors explore proven business automations (WhatsApp, AI GPT-4o, E-Commerce, Invoicing), view step-by-step visual pipelines, and connect directly to your WhatsApp or submit contact briefs.

2. Daily Operations & Step-by-Step Guide

Step 1: Admin Login (/login)

Navigate to /login and enter your admin credentials.
Email: admin@workflows.com
Password: admin123456
You will access the central analytics dashboard.

Step 2: Manage Leads CRM (/admin/requests)

View incoming customer briefs. Click the green WhatsApp icon next to any lead to open a 1-click chat. Update status from NEW -> CONTACTED -> IN PROGRESS -> COMPLETED.

Step 3: Create & Publish Workflows

Go to /admin/workflows/new. Enter title, summary, category, platforms, and click '+ Add Step' to build visual triggers and actions. Set status to PUBLISHED to show it on your live catalog immediately.

Step 4: 1-Click n8n / Make Import

Go to /admin/import. Upload or paste any exported n8n JSON file. Click 'Parse & Preview Nodes'. The system creates a ready-to-edit draft workflow automatically without manual re-typing.

3. How to Update Your WhatsApp Number & Settings

WhatsApp Configuration (.env file):

To change where customer messages are sent, update NEXT_PUBLIC_WHATSAPP_NUMBER in your environment settings (e.g. +212600000000). Every 'Contact on WhatsApp' button across the site will immediately route to your new phone number.

4. Monetization & Service Pricing Guide

Service Type	What is Delivered	Suggested Pricing
Workflow Setup & Deploy	Setting up template on client n8n/WhatsApp Cloud account	1,500 - 5,000 MAD
Monthly Maintenance Retainer	Monitoring uptime, token refreshes, bug fixes	500 - 1,500 MAD/mo
Custom Tailored Build	Building custom complex multi-agent system	5,000 - 25,000+ MAD

Client Presentation Script & Discovery Meeting Playbook

Exact words, talking points & demo sequence to close deals on Google Meet or in-person

5. Word-for-Word Discovery Call Script

"Salam / Hello! This platform is designed to turn your business processes into automated revenue streams.

When prospects visit your site, they see ready solutions (WhatsApp auto-responders, cart recovery, AI support) with step-by-step visual flows that give instant credibility. They can reach out in one tap on WhatsApp or submit a form.

From your admin dashboard, you receive leads in real time, launch direct WhatsApp chats with one click, and can upload any n8n workflow file to add new services in seconds. Everything is automated to save you time and maximize conversion."

6. 5-Minute Live Demo Checklist for Your Client

- **1. Homepage Tour**
Show the modern hero banner, search bar, and department categories (WhatsApp, E-Commerce, CRM, AI, Finance).
- **2. Workflow Catalog (/workflows)**
Show live filters by Category, Difficulty, and Platform. Show that URL parameters update automatically.
- **3. Flow Viewer & WhatsApp CTA**
Open 'WhatsApp AI Lead Qualifier'. Scroll through the vertical timeline viewer and click 'Contact on WhatsApp' to show the pre-filled message.
- **4. Submit a Test Lead**
Click 'Get This Automation', fill the form, and trigger the confetti celebration.
- **5. Admin Dashboard & Leads CRM**
Login to /admin/requests, show the test lead, update status, and show 1-click WhatsApp message button.
- **6. n8n Import Center (/admin/import)**
Paste sample n8n JSON and click 'Parse & Preview' to demonstrate instant draft creation.
